COURSE OUTLINE

BEGINNERS & INTERMEDIATE

Designed to help a botanical artist improve their colour mixing and 'see' colour more easily

A course for those who struggle to mix accurately with watercolours! Learn how to mix watercolour accurately using primaries. You'll be amazed at what can be achieved with practice and you won't look back!

This course is for Beginners and Intermediate students. The course contains a lot of exercises, comprehensive course notes, pre-recorded video tutorials and a dedicated hidden Facebook Student Group, all designed and created by your tutor Jackie Isard. The course concentrates on mixing with primaries and aims to help you 'see' colour more easily whilst building your confidence in colour mixing. Exercises can be done in your own time, no deadlines. It's definitely not another course with endless colour charts!

Details of the course:

- No endless charts!
- Learn how pigments work
- Understand pigment qualities
- Learn the difference between cool and warm mixes
- Understand which pigments to choose for vibrant colours and subdued (muted) tones
- 4 lessons with exercises to help you 'see' colour more easily
- Detailed notes and pre-recorded video tutorials
- Develop a structured way to test colour and mixing possibilities
- Finally, a practical task for a better understanding of what has been learned through the course lessons
- Patient online appraisal all through the course

We will cover pigment qualities, warm and cool pigments, those difficult greens, botanical greys (we touch on this, the advanced course will cover it in more detail), mixing purely with primaries and neutral beige/brown tones for those beautiful Autumn colours. Exercises include making a few small reference charts, mixing with cool and warm primaries, matching swatch colours, and many other useful tips/exercises.

There are tutorial videos as well as two specifically for beginners. You will be added to a Secret Facebook Group where the video tutorials are held. In this group you can view other students work, find useful tips and post your work if you wish. Personal appraisal is always done via private messenger, not publically. One-to-one tuition and help is always on hand and you will never have to wait long for a response. It is important to me that every student is given the attention and help they need to ensure they have a successful and rewarding journey throughout the course.

See my blog for more on colour matters and my website for student reviews
